SUBJECT: POLAND: AVIAN INFLUENZA UPDATE - MAY 22, 2006

REF: WARSAW 896 AND PREVIOUS

1. There have been no new outbreaks of AI in Poland during the past week. The only existing outbreak site is in Warta Village recorded on May 4, 2006 and is still under quarantine. The General Veterinary Inspectorate office stated that bird migration is due to end shortly, reducing risk of new AI outbreaks.
